## MODERN DESIGN PERSPECTIVES

### Amazing sizes, versatile and strong surfaces

Large, optimum, and versatile, with a 1200x1800mm size that opens up new design possibilities. Our designs are based on precise attention to detail, which is replicated in perfect surfaces that accentuate the precision of the design art and the natural material.

The large-scale format's perspective substantially expands its potential applications in all architectural contexts for interior design, as well as anywhere a project offers a bold entire look with no reservations.
