FRONTLIT BANNER | BACKLIT BANNER  
BLACKOUT FLEX BANNER

# WHY CHOOSE ADDICA INDUSTRIES LLP ?

## RESEARCH & DEVELOPMENT

Their concepts have helped ADDICA in upgrading technology & product line to Achieve higher levels of perfection.

## FOCUS ON QUALITY

Addica Industries LLP is committed to harness excellence by implementing advanced quality control policy.

## TECHNOLOGY

Use of quality-certified raw materials and innovative - modern technology.

## Creativity

The habit of cloning oneself has seeded the flex market so badly that creative ideas are hard to find. Original and practical creative ideas can be your ladder to success. The one thing the current flex market lacks is original ideas.

## Innovation

Innovation is one key aspect of the business which ensures success even in the toughest times. We at ADDICA believe in being proactive rather than reactive. When you innovate new technologies the steps to success automatically form for you.

# We

## ADDICA INDUSTRIES LLP WOULD LIKE TO INTRODUCE OURSELVES AS MANUFACTURER OF PVC FLEX BANNER.

### WHO WE ARE ?

We are equipped with fully automatic calendaring flex banner manufacturing plant in India with most advanced producing technology from Germany, Korea & Taiwan. We have established a method that is efficient for humanity management with the superb working environment that reflects to excellent and stable quality of products manufactured.

Our experienced professionals develop the most innovative products completely complying with international quality standards and benchmarks. We use the finest quality raw materials sourced from our reliable vendors, and ensure that all products are dynamically tested on a broad spectrum of quality parameters to ensure flawlessness and top-notch quality.

We produce complete range of PVC Flex Banner like Front lit, Back lit, Black back, Grey back, blackout flex banners from 200 GSM to 510 GSM with widths from 1 meter to 3.2 meter.
